

IN THE CITY COUNCIL
FOR THE CITY OF HOOD RIVER, OREGON

ORDINANCE NO. 2054

An Ordinance amending Hood River Municipal Code Title 15 (Buildings and Construction) Chapter 15.04 Building Code and Chapter 15.20 Television and Radio Towers

The Hood River City Council finds as follows:

WHEREAS, the City of Hood River is organized to employ and operate a building department to enhance public safety through codes.

WHEREAS, the building department administers state and local building codes related to structural and mechanical scope. The building department administers and enforces State of Oregon building codes and local codes deriving from Title 15 Hood River Municipal Code.

WHEREAS, The 2014 Oregon Structural Specialty Code was the existing code cycle adopted across the state.

WHEREAS, the State of Oregon recently adopted a new code cycle to be adopted by state jurisdictions and effective January 1, 2020. The State has transitioned from the 2014 Oregon Structural Specialty Code to the 2019 Oregon Structural Specialty Code.

WHEREAS, the newly adopted State Code creates change in scope that require permits or are exempt in 2019 Oregon Structural Specialty Code Chapter 1 Administration Sections 105.3 through 105.6.

WHEREAS, the newly adopted state code gives local municipalities options to specifically amend these requirements under the authority of ORS 455.020 to adopt local permits.

WHEREAS, the City of Hood River has coordinated with multiple Building Departments and Building Officials across the state to create consistency in the administration of local and state building permits as a result of the newly adopted code cycle and options given to municipalities to make amendments.

WHEREAS, the City of Hood River Building Department recommends amendments to Title 15 of the Hood River Municipal Code and the adoption of the 2019 Oregon Structural Specialty Code. Changes are primarily driven by the elimination of provisions from state adopted building codes with references that allow local adoption of those provisions. Additional changes are recommended to provide cleanup of outdated code provisions.

WHEREAS, the Hood River City Council heard the Building Department recommendation on December 9, 2019 and authorized staff to prepare an amendment ordinance. The ordinance was adopted on January 27th, 2020 at the City Public Hearing.

WHEREAS, amendment ordinance has been drafted and posted to the citizens of Hood River on January 17, 2020. Amendments to HRMC Title 15 as set forth in Exhibit A and B.

NOW, THEREFORE, based on the foregoing findings, which are incorporated herein by this reference, the Hood River City Council Ordains as follows:

Section 1 – Amendment. Title 15 (Buildings and Construction) Chapter 15.04 Building Code shall be amended, attached hereto and incorporated herein by this reference.

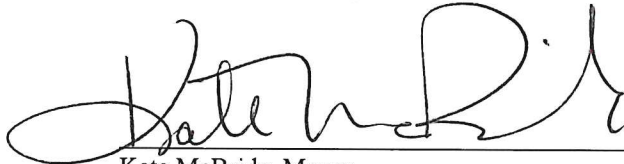

Section 2 – Amendment. Title 15 (Buildings and Construction) Chapter 15.20 Television and Radio Towers shall be repealed entirely. These provisions were adopted in 1953 to regulate the installation of radio and television antennas and updated in 1996 only to point to current city fee schedules. Many of the provisions are very outdated including requirements for electrical inspection, which the City does not have authority for under state regulations. Current land use and building codes provide appropriate regulation of towers and antennas. Attached hereto and incorporated herein by this reference.

Read for the First Time this 27th day of January 2020.

Read for the Second Time and approved this 10th day of February 2020.

This Ordinance shall take effect on the 31st day following the second reading.

CHAPTER 15.04 – BUILDING CODE*

* For statutory provisions on the State Building Code, see ORS 455.010 et seq.

Legislative History: Ord. 1364 (1974); Ord. 1444 (1979); Ord. 1531 (1983); Ord. 1632 (1990); Ord. 1748 (1998); Ord. 1990 (2010)

SECTIONS:

- 15.04.010 Compliance With State Law
- 15.04.015 Local Permits
- 15.04.020 Administration of Program
- 15.04.025 Right of Entry
- 15.04.030 Service Utilities
- 15.04.040 Demolition and Damaged Buildings
- 15.04.050 Excavation and Grading
- 15.04.055 Patio Covers
- 15.04.060 Interpretation of Provisions
- 15.04.070 Unsafe Structures and Equipment
- 15.04.080 Appeals
- 15.04.085 Heat Pumps and Mechanical Devices
- 15.04.090 Violations; Penalties; Remedies
- 15.04.100 Building Official: Authority to Impose Administrative Civil Penalty
- 15.04.110 Appeal Procedures
- 15.04.120 Unpaid Penalties
- 15.04.130 Notice of Violations and Stop Work Orders

15.04.010 Compliance with State Law. In addition to compliance with this chapter and other ordinances of the city, building and related activities shall comply with provisions of each of the specialty codes making up the State Building Code adopted by the Administrator of the Building Codes Division, Department of Consumer and Business Services and the Oregon Fire Code adopted by the state Fire Marshal as those codes now are and all subsequent amendments and additions thereto. No person shall conduct building or related activities without compliance with these codes within the city. (Ord. 1444, 1979; Ord. 1364, 1974)

15.04.015 City Permits. In addition to permits regulated by the State Building Code, the City requires permits and approvals for the following items not regulated by the State Building Code. No person shall conduct building or related activities without compliance prior to submitting a permit application to the Building Official and receiving approval for the following:

- A. Fences in excess of 7'-0"
- B. Retaining walls that support a surcharge or are intended to impound Class I, II, or IIIA liquids.
- C. Tanks not otherwise regulated by adopted codes that connect to building systems, support commercial or industrial processes.
- D. Cellular phone/radio/television and similar towers supported by a regulated structure or in excess of 20' in height measured from grade to the top of the tower.
- E. Flagpoles and exterior light poles in excess of 20'-0" in height measured from grade to the top of the pole.
- F. Freestanding signs in excess of 4'-0" in height measured from grade to the top of the sign.
- G. Equipment shelters associated with commercial or industrial facilities or supporting communication facilities.
- H. Demolition of a structure

City permits required under this chapter shall be processed in a similar manner as other permits required by the State Building Code. Fees for local permits shall be based on valuation using the currently adopted fee schedule for building permits.

15.04.020 Administration of Program. The City shall provide for the administration of a plan checking, building permit and inspection program for structural and mechanical work, but not for plumbing and electrical work.

- A. The City program is applicable to public buildings including state building, as well as private buildings. (Ord. 1364, 1974)

15.04.025 Right of Entry. Where it is necessary to make an inspection to enforce the provisions of adopted codes, or where the Building Official has reasonable cause to believe that there exists in a structure or upon a premises a condition that is contrary to or in violation of this code that makes the structure or premises unsafe, dangerous or hazardous, the Building Official or his/her authorized representative is authorized to enter the structure or premises at reasonable times to inspect or to perform the duties imposed by adopted codes, provided that if such structure or premises be occupied that credentials be presented to the occupant and entry requested. If such structure or premises is unoccupied, the Building Official shall first make a reasonable effort to locate the owner or other person having charge or control of the structure or premises and request entry. If entry is refused, the Building Official shall have recourse to the remedies provided by law to secure entry.

15.04.030 Service Utilities. Section 112 entitled "Service Utilities" of the Oregon Structural Specialty Code is adopted and shall regulate the connection and disconnection of service utilities as deemed appropriate by the Building Official.

15.04.040 Demolition and Damaged Buildings. A permit is required for demolition of any structure, even if the structure did not require a permit to construct. Partial demolition of a structure for additions, remodels or other alterations will be processed through the building permit procedures as an alteration to the structure. The Building Official can waive the requirement for permit for work of a very minor nature when it is determined that no utilities will be affected, there is no danger to the public, and no other department review is required. Prior to the issuance of a demolition permit, the Building Official shall receive approval from other departments and agencies regarding land use, utilities, and other associated aspects for the structure.

Demolition work shall comply with approved plans and conditions issued upon the permit as well as the following standards:

- A. It is unlawful for an owner or person in charge of a building being demolished or which has been damaged by fire, wind, flood, earthquake, neglect or similar event to leave a portion that is liable to collapse or is a danger to the life, health, property or safety of the public:
1. Unsupported for more than one hour; or
 2. Unsupported for more than 24 hours, during which time suitable barricades must prevent access to the building.
- B. Structural supports for a building being demolished or which has been damaged by fire wind, flood, earthquake, neglect or similar event must be designed by a structural engineer registered with the State and hired by the owner or person in charge. All such designs, calculations, drawings and inspection reports must be approved by the Building Official before implementation.
- C. The demolition of buildings must occur in a safe manner and consistent with the terms of the demolition permit issued by the city. Adjoining streets and sidewalks may not be littered with solid waste and must be wetted down, if necessary, to maintain cleanliness. During demolition work, all receptacles, drop boxes, shafts or piping used in such demolition work must be covered in an appropriate manner.
- D. During removal of a building:
1. A foundation that is not intended for use in new construction must be removed and all excavations filled to level with the adjoining grade with approved structural fill material; and
 2. Plans for foundation intended for use in new construction must be submitted to the city and the foundation approved for such use. Upon completion of demolition work, the remaining foundations must be barricaded

by a fence at least eight feet high until the new construction has progressed sufficiently to negate hazards to the public.

- E. Demolition Debris. An owner or person in charge must remove all solid waste from the premises upon which demolition is carried out within seven days from completion of the demolition or a stoppage, if work remains uncompleted, unless the city extends the time in writing due to weather, terrain or other circumstances deemed appropriate.

15.04.050 Excavation and Grading. Appendix Chapter J, entitled “Grading” of the Oregon Structural Specialty Code is adopted and shall regulate grading, excavation and earthwork construction on private property. (Ord. 1632, 1990; Ord. 1444, 1979; Ord. 1364, 1974)

15.04.055 Patio Covers. Appendix Chapter I, entitled “Patio Covers” of the Oregon Structural Specialty Code is adopted and shall regulate construction of regulated patio covers on private property.

15.04.060 Interpretation of Provisions. In addition to the provisions of the Structural Specialty Code and similar provisions of other specialty codes, the Building Official may approve a material or method of construction not specifically prescribed by this chapter provided he/she finds that the proposed design is satisfactory and that the material, method or work offered is for the purpose intended, at least the equivalent of that specifically prescribed by this chapter in quality, effectiveness, fire resistance, durability, safety and emergency conservation, and the Administrator of the Building Codes Division, Department of Consumer and Business Services has not issued a report disapproving the material or method for the purpose. The Building Official may refer the proposed design to the Building Codes Division or the City Manager. A person affected by ruling of the Building Official may appeal such ruling through the appeals process as outlined in this chapter within thirty days of the date of ruling. The provisions of this section shall not be interpreted to preclude a person from requesting a ruling from the Administrator of the Building Codes Division prior to the submitting of an application to the City for permit, or after withdrawing previously submitted application. (Ord. 1364, 1974)

15.04.060 Unsafe Structures and Equipment. Structures or existing equipment that are or hereafter become unsafe, unsanitary or deficient because of inadequate means of egress facilities, inadequate light and ventilation, or that constitute a fire hazard, or are otherwise dangerous to human life or the public welfare, or that involve illegal or improper occupancy or inadequate maintenance, shall be deemed an unsafe condition. Unsafe structures and equipment shall be taken down and removed or made safe, as the Building Official or his/her authorized representative deems necessary and as provided for in this section. A vacant structure deemed unsafe shall be secured against entry.

When the Building Official or the Building Official’s authorized representative has inspected, caused to be inspected, or received a sufficient amount of verifiable information about any building and has found and determined that such building or structure is unsafe, the Building Official shall commence proceedings to cause the repair, vacation or demolition of the building.

- A. Notice and Order: The Building Official shall issue a notice and order directed to the record owner of the building. The notice and order shall contain:

1. The street address and a legal description sufficient for identification of the premises upon which the structure or equipment is located.
2. A statement that the Building Official has found the structure or equipment to be dangerous with a brief and concise description of the conditions found to render it unsafe under the provisions of this chapter.
3. A statement of the action required to be taken as determined by the Building Official;
 - a. If the Building Official has determined that the structure or equipment must be repaired, the order shall require that all required permits be and the work physically commenced within 60 days from the date of the order and completed within such time as the Building Official shall determine is reasonable under all of the circumstances.
 - b. If the Building Official has determined that the structure or equipment must be vacated, the order shall require that it shall be vacated within a time certain from the date of the order as determined by the building official to be reasonable.
 - c. If the Building Official has determined that the equipment or structure must be demolished, the order shall require that it be vacated within such time as the Building Official shall determine is reasonable (not to exceed 60 days from the date of the order); that all required permits be secured within 60 days from the date of the order; and that the

demolition be completed within such time as the Building Official shall determine is reasonable.

4. Statements advising that if any required repair or demolition work (without vacation also being required) is not commenced within the time specified, the Building Official;

a. Will order the structure or equipment be vacated and posted to prevent further occupancy until the work is completed, and

b. May proceed to cause the work to be done and charge the costs thereof against the property or its owner.

5. Statements advising

a. That any person having any record title or legal interest in the equipment or structure may appeal from the notice and order or any action of the Building Official to the City Manager, provided the appeal is made in writing as provided in this chapter and filed with the Building Official within 30 days from the date of service of such notice and order; and

b. That failure to appeal will constitute a waiver of all right to an administrative hearing and determination of the matter.

B. Service of Notice and Order: The notice and order and any amended or supplemental notice and order, shall be served upon the record owner and posted on the property; and one copy thereof shall be served on each of the following if known to the Building Official or disclosed from official public records: The holder of any mortgage, or deed of trust or other legal interest holder; the owner or holder of any lease of record; and the holder of any other estate or legal interest of record in or to the building or the land on which it is located. The failure of the Building Official or City Code Enforcement to serve any person required herein to be served shall not invalidate any proceedings hereunder as to any other person duly served or relieve any such person from any duty or obligation imposed by the provisions of this section.

C. Method of Service: Service of the notice and order shall be made upon all persons entitled thereto either personally or by mailing a copy of such notice and order by certified mail, postage prepaid, return receipt requested, to each such person at their address as it appears on the last equalized assessment roll of the county or as known to the Building Official. If no address of any such person so appears or is known to the Building Official, then a copy of the notice and order shall be so mailed, addressed to such person, at the address of the building involved in the proceedings. The failure of any such person to receive such notice shall not affect the validity of any proceedings taken under this section. Service by certified mail in the manner herein provided shall be effective on the date of mailing.

D. Permitted Work: Where the structure or equipment determined to be unsafe by the Building Official is restored to a safe condition, to the extent that repairs, alterations or additions are made or a change of occupancy occurs during the restoration of the structure, such repairs, alterations, additions and change of occupancy shall comply with this chapter as well as State Law as noted in Section 15.04.010.

1. The provisions of Section 8.08 shall govern abatement of unsafe structures which shall be abated as nuisances.

15.04.080 Appeals. Any person aggrieved of a decision of the Building Official in the administration of assigned duties may appeal that decision. Appeals of technical code matters for codes regulated by the State Building Code shall be appealed to the appropriate State Board as outlined in ORS. Appeals of administrative provisions of State adopted Building Code and appeals of City adopted code provisions may be appealed to the City Manager as outlined in Section 15.04.080. Appeals through either process shall have no authority to deliberate and make determinations on City Manager requirements or conditions of approval.

15.04.085 Heat Pumps and Mechanical Devices: The following standards shall govern the issuance of permits and noise levels of heat pump and other mechanical installations:

A. Existing Heat Pumps and Mechanical Devices. No person owning or controlling an existing commercial or residential heat pump or mechanical device shall cause or permit operation of that noise source if the noise levels generated by the heat pump or mechanical device exceed fifty decibels as measured within twenty-five feet of the nearest residential structure on an adjacent parcel of land.

B. New Heat Pump and Mechanical Installations. Effective upon adoption of the ordinance codified in this Section, no person shall install, or operate, a commercial or residential heat pump or mechanical device if noise levels from its

operation exceed forty-five decibels within twenty-five feet of the nearest residential structure on an adjacent parcel of land, or within twenty-five feet of the property line of any adjacent unoccupied parcel of land zoned for residential use.

C. Permit Requirement. No person shall install a commercial or residential heat pump or mechanical device prior to submitting a permit application to the Building Official and receiving approval. All applications shall certify that the operation of the heat pump or mechanical device will meet the provisions of Section 2 using the Air Conditioning and Refrigeration Institute Standards for Application for Sound Rated Outdoor Unitary Equipment (Standard 275).

D. Enforcement Responsibility. It shall be the responsibility of the Building Official to assure all provisions of this section are met prior to issuing an installation permit for a heat pump or mechanical device.

E. Variances. Where practical difficulties, unnecessary hardships, or results inconsistent with the provisions of this Section exist, a variance not to exceed five percent of the maximum noise levels permitted herein may be granted by the Building Official. Any person dissatisfied with the decision of the Building Official may appeal such decision in writing to the City Council within ten days of such decision. The City Manager may grant a variance to the extent that the City Manager finds the variance to be consistent with the terms of this Section. (Ord. 1531, 1983)

15.04.090 Violation; Penalties; Remedies

A. No person, firm, corporation or other entity however organized shall erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy or maintain a building or structure in the City, or cause the same to be done, contrary to, or in violation of, this chapter. (Ord. 1990)

B. All violations of any provision of this chapter shall be subject to an administrative civil penalty not to exceed \$500 and shall be processed in accordance with the procedures set forth in this chapter. (Ord. 1990)

C. Each day that a violation of a provision of this chapter exists constitutes a separate citable violation. (Ord. 1990)

D. In addition to the above penalties, a condition caused or permitted to exist in violation of this chapter is a public nuisance and may be abated by any of the procedures set forth under any applicable law. (Ord. 1990)

E. The penalties and remedies provided in this section are not exclusive and are in addition to other penalties and remedies available to the City under any ordinance, statute or law. (Ord. 1990)

15.04.100 Building Official: Authority to Impose Administrative Civil Penalty.

A. Upon a determination by the Building Official that any person, firm, corporation or other entity however organized has violated a provision of this chapter or a rule adopted there under, the Building Official may issue a notice of civil violation and impose upon the violator and/or any other responsible person an administrative civil penalty as provided by Subsections (A) to (K) of this Section. For purposes of this Subsection, a responsible person includes the violator, and if the violator is not the owner of the building or property at which the violation occurs, may include the owner as well. (Ord. 1990)

B. Prior to issuing an order to correct a violation under this Section, the Building Official may pursue reasonable attempts to secure voluntary correction. (Ord. 1990)

C. Prior to issuing a notice of civil violation and imposing an administrative civil penalty under this section, the Building Official shall issue an order to correct a violation to one or more of the responsible persons within a reasonable timeline based on the history of the violation as determined by the Building Official. Except where the Building Official determines that the violation poses an immediate threat to health, safety, environment, or public welfare, the time for correction shall be less than seven calendar days. (Ord. 1990)

D. Following the date or time by which the correction must be completed as required by an order to correct a violation, the Building Official shall determine whether the required correction has been completed. If the required correction has not been completed by the date or time specified in the order, the Building Official may issue a notice of civil violation and impose an administrative civil penalty to each responsible persons to whom the order to correct was issued. (Ord. 1990)

E. Notwithstanding Subsections (B) and (C), the Building Official may issue a notice of civil violation and impose an administrative civil penalty without having issued an order to correct violation or made attempts to secure voluntary correction where the Building Official determines that the violation was knowing or intentional or a repeat of a similar violation. (Ord. 1990)

F. In imposing an administrative civil penalty authorized by this Section, the Building Official shall consider: (Ord. 1990)

1. The person's past history in taking all feasible steps or procedures necessary or appropriate to correct the violation;
2. Any prior violations of statutes, rules, orders, and permits;
3. The gravity and magnitude of the violation;
4. Whether the violation was repeated or continuous;
5. Whether the cause of the violation was an unavoidable accident, negligence, or an intentional act;
6. The violator's cooperativeness and efforts to correct the violation; and
7. Any relevant rule of the Building Official.

G. Any notice of a civil violation that imposes an administrative civil penalty under this Section shall either be served by personal service or shall be sent by registered or certified mail and by first class mail. Any such notice served by mail shall be deemed received for purposes of any time computations hereunder three days after the date mailed if to an address within this State, and seven days after the date mailed if to an address outside this state. Every notice shall include the following information: (Ord. 1990)

1. Reference to the particular code provision, permit requirement, Ordinance number, or rule involved;
2. A short and plain statement of the violation or how the structure or property in question is a violation;
3. A statement of the amount of the penalty(ies) that are, or could in the future be, imposed;
4. The date on which the order to correct was issued and time by which correction was supposed to be made, or if the penalty is imposed pursuant to Subsection (E), a short and plain statement of the basis for concluding that the violation was knowing, intentional, or repeated; and
5. A statement of the party's right to appeal the civil penalty to the City Manager; a description of the process the party is required to use to appeal the civil penalty; and the deadline by which such an appeal must be filed.

H. Any person, firm, corporation or other entity however organized to whom a notice of civil penalty is issued may appeal the penalty to the City Manager. The provisions of Section 15.04.110 shall govern any requested appeal. (Ord. 1990)

I. A civil penalty imposed hereunder shall become final upon expiration of the time for filing an appeal, unless the responsible person appeals the penalty to the City Manager pursuant to, and within the time limits established by, Section 15.04.110. (Ord. 1990)

J. Each day the violator fails to remedy the code violation shall constitute a separate citable violation. (Ord. 1990)

K. The civil administrative penalty authorized by this section shall be in addition to:

1. Assessments or fees for any costs incurred by the City in remediation, cleanup, or abatement, and
2. any other actions authorized by law, provided that the City shall not issue a citation to Municipal Court for a violation of this Chapter. (Ord. 1990)

15.04.110 Appeal Procedures.

A. A person, firm, corporation or other entity, however organized, that is aggrieved by an administrative action of the Building Official taken pursuant to any Section of this Chapter that authorizes an appeal under this Section may, within 15 days after the date of notice of the action, appeal in writing to the Building Official. The written appeal shall be accompanied by the appeal fee, set by resolution of the City Council, and shall include the following information: (Ord. 1990)

1. The appellant's name and address;
2. Identify the determination that is being appealed and describe it generally;
3. The reason the determination is incorrect; and

4. What the correct determination of the appeal should be. If a person, firm, corporation or other entity however organized appeals a civil penalty to the City Manager, the penalty shall become final, if at all, upon issuance of the City Manager's decision affirming the imposition of the administrative civil penalty.
- B. If a notice of revocation of a license or permit is the subject of the appeal, the revocation does not take effect until a final determination of the appeal. Notwithstanding this paragraph, an emergency suspension shall take effect upon issuance of, or such other time stated in, the notice of suspension. (Ord. 1990)
- C. Unless the appellant and the City agree to a longer period, an appeal shall be heard by the City Manager within 30 days of the receipt of the notice of intent to appeal. At least 10 days prior to the appeal hearing, the City shall mail notice of the time and location thereof to the appellant. (Ord. 1990)
- D. The City Manager shall hear and determine the appeal based on the appellant's written statement and any additional evidence the City Manager deems appropriate. At the hearing, the appellant may present testimony and oral argument personally or through an attorney. The burden of proof shall be on the Building Official. The rules of evidence as used by courts of law do not apply. (Ord. 1990)
- E. The City Manager shall issue a written decision within 10 days following the hearing. The City Manager's written decision shall be final. (Ord. 1990)
- F. Except as provided in this subsection, the appeal fee is not refundable. The City Manager may make a determination on the motion of the appellant that the appeal fee is refunded to the appellant upon a finding by the City Manager that the appeal was not frivolous. (Ord. 1990)
- G. Failure to pay a penalty imposed hereunder within 10 days after the penalty becomes final as provided in Subsection (A) shall constitute a violation of this code. Each day the penalty is not paid shall constitute a separate violation. The Building Official is authorized to collect the penalty by any administrative or judicial action or proceeding authorized by Section 15.04.120, other provision of this Code or State Law. (Ord. 1990)

15.04.120. Unpaid Penalties.

- A. Failure to pay an administrative penalty imposed pursuant to this code within ten days after the penalty becomes final shall constitute a violation of this code. Each day the penalty is not paid shall constitute a separate violation. The Building Official is authorized to collect the penalty by any administrative or judicial action or proceeding authorized by Subsection (B) below, other provisions of this Code, or State Statutes. (Ord. 1990)
- B. If an administrative civil penalty is imposed on a responsible person because of a violation of any provision of this code resulting from prohibited use or activity on real property, and the penalty remains unpaid 30 days after such penalty become final, the Building Official shall assess the property the full amount of the unpaid fine and shall enter such an assessment as a lien in the City and/or County lien docket(s). At the time such an assessment is made, the Building Official shall notify the responsible person that the penalty has been assessed against the real property upon which the violation occurred and has been entered in the City and/or County lien docket(s). The lien shall be enforced in the same manner as all City liens. Interest shall commence from the date of entry of the lien in the lien docket. (Ord. 1990)
- C. In addition to enforcement mechanisms authorized elsewhere in this Code, failure to pay an administrative civil penalty imposed pursuant to this Code shall be grounds for withholding issuance of requested permits or licenses, issuance of a stop work order, if applicable, or revocation or suspension of any issued permits or certificates of occupancy. (Ord. 1990)

15.04.130. Notice of Violations and Stop Work Orders. Whenever any work on any building, structure, electrical, gas, mechanical or plumbing system is being done contrary to the provisions of this Chapter or other Ordinance of the City, the Building Official may order the work stopped by giving written notice of the violation. The Building Official shall give the written notice to the owner of the property or his agent or to any person doing the work or causing it to be done and shall also post the property. The notice shall state the specific violations and conditions under which work may be resumed. If the Building Official determines that an emergency exists or there is an imminent threat of harm to the public generally or individuals, the Building Official may order all work stopped without prior written notice by issuing a Stop Work Order. Upon issuance and posting of a Stop Work Order, all work shall immediately cease. (Ord. 1990)
