- B. **Initiation.** The process of removing a historic landmark/district from the inventory may be initiated by the Planning Commission, City Council, the Landmarks Board, the property owner, or by any other interested person.
- C. **Procedure.** Review of a request for removal of designation is heard by the Landmarks Board who is the final review body unless an appeal is filed. - D. **Application.** An application for removal for a historic landmark/district designation shall be prepared and filed with the Planning Department, using forms prescribed by the Planning Director. The Planning Director shall fix a date and time for a public hearing before the Landmarks Board.
- E. **Review Criteria.** The Landmarks Board shall evaluate the request for removal of the historic landmark/district designation based upon findings that removal of the historic designation will not adversely impact properties in the surrounding area or integrity of the historic district or of another historic landmark on the same parcel. In order to approve an application, it must be found that at least one (1) of the following has occurred since the site was listed as a historic landmark/district:
 - 1. Significance of the historic landmark/district has been substantially reduced or diminished according to the review criteria established in Section 17.14.080 (5).

Normal maintenance may include, but not be limited to

1. Painting and related preparation;

If the Board acts to approve the request, in whole or in part, issuance of a permit and the commencement of the work shall be delayed for twenty (20) days after the Board's approval to allow for the filing of appeals. G. **Decisions.** The Landmarks Board shall make decision within ten (10) days following the completion of the public hearing. For applications for demolition, the Landmarks Board may approve, approve with conditions, or invoke a stay of demolition. If the Landmark Board determines that a stay of demolition is appropriate, the City Council shall be promptly notified. If the City Council agrees that a stay of demolition is appropriate, the Hood River City Council shall apply to the Hood River County Circuit Court for a mandatory injunction prohibiting demolition. The length of stay shall be no more than ninety (90) days from the date of the public hearing. During the period, the Landmarks Board shall attempt to determine if public or private acquisition and preservation is feasible, or alternatives are possible that could be carried out to prevent demolition or removal of the historic landmark, individually or within a district.

1. Further stays of demolition may be imposed for a period not to exceed one hundred and twenty days (120) days from the date of the hearing, if the Landmarks Board finds:
 - a. There is a program or project underway that could result in public or private acquisition of the historic landmark; and
 - b. There are reasonable grounds for believing the program or project may be successful.
2. After granting a further postponement, the Landmarks Board may order the Planning Director to issue the permit if it finds:
 - a. All programs or projects to save the historic landmark have been unsuccessful;
 - b. The application for demolition or moving has not been withdrawn; and
 - c. The application otherwise complies with city ordinances and state law.
3. During the stay of demolition, the Landmarks Board may require the property owner to:

- a. List the historic landmark in local and state newspapers of general circulation for a period of not less than sixty (60) days stating that the property shall be given away to parties interested in moving the historic landmark;
 - b. Give public notice by posting a hearing notice on site in addition to a sign, which shall read: "Historic Landmark to be Moved or Demolished-Call City Hall for Information." The sign shall be provided by the City and be posted in a prominent and conspicuous place within ten (10) feet of a public street abutting the premises on which the structure is located. The property owner is responsible for assuring that the sign is posted for a continuous sixty (60) day period;
 - c. Prepare and make available any information related to the history of the historic landmark; and
 - d. Assure that the property owner has not rejected a bona fide offer that would lead to the preservation of the historic landmark.
4. As a condition for approval of a demolition permit, the Landmarks Board may require one or more of the following:
- a. Require photographic documentation, architectural drawings, and other graphic data or history as it deems necessary to preserve an accurate record of the resource. The historical documentation materials shall be the property of the City or other party determined appropriate by the Landmarks Board; and/or
 - b. Require that the property owner document that the Historic Preservation League of Oregon or other local preservation group had been given the opportunity to salvage and record the historic landmark.

H. Exemptions. The Planning Department shall issue a permit for moving or demolition if any of the following conditions exist:

1. The building is not designated compatible within an historic district;

17.14.130 Appeals. Final decisions by the Landmarks board may be appealed to City Council, per the provisions of the *Appeal Procedure in Review Procedures* (Chapter 17.09).

17.14.140 Penalties/Enforcement. Failure to comply with any provision of this chapter shall be considered a Class A infraction and the violator shall be subject to a fine of not less than \$200 per violation. In addition, this chapter may be enforced by a suit in equity for a mandatory or prohibitory injunction. The prevailing party to any such civil enforcement action by the City of Hood River shall be entitled to recover reasonable attorney's fees from the non-prevailing party at trial or upon appeal.

17.14.150 Time Limits. Landmarks Review Board permits for exterior alterations, new construction, or demolitions are valid for a period of two (2) years from the written notice of the final decision, or the decision on an appeal, whichever is later.

Chart “A” – Secretary of Interior’s Standards for Rehabilitation

The following standards are to be applied to rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
2. The historic character of a property shall be retained and preserved. The removal of historic material or alteration of features and spaces that characterize a property shall be avoided.
3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.
4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
5. Distinctive features, finishes and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.
6. Deteriorated features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities, and where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
7. Chemical or physical treatments, such as sand blasting that cause damage to historic material shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.
8. Significant archaeological resources affected by a project or development shall be protected and preserved according to Oregon Revised Statute ORS 358.905. If such resources must be disturbed, mitigation measures shall be undertaken.
9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
10. New additions and adjacent or related construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
